1930 Price List and Supplement to 1929 Catalogue

Ashville Flower Fields

C. A. Carpenter, Prop.

Ashville, New York

At these prices all bulbs are prepaid anywhere in the United States or Canada.

The packages of Bulblets contain from 5 to over 100 according to the price of the variety.

No order accepted for less than \$1.00 and all orders of over \$5.00 will receive a very generous discount in extra bulbs of our selection. We will also give extras with smaller orders.

STATE INSPECTION

License No. 4589. All stock inspected under the Farms and Market Laws of New York State.

Catalogue season is here and we will again put out a price list, but this will be different than common. We will not print a large catalogue this year, as we still have quite a quantity of our 1929 edition on hand, and as this has nearly all of the descriptions needed, we will just make a supplement price list. Any who do not have one of our 1929 descriptive catalogues and would like one, may have one by dropping us a card.

We are reducing the price of many of the commercial varieties, and to do this we will sell no single item for less than 10c. We will, however, sell two or three or sometimes more of a variety for 10c.

NOTES FROM OUR 1929 TRIAL PLOT

We were very late this year in getting our Glads planted (began planting June 10) and our first four Glads opened the first bloom in 43 days. Lottie Belle as usual was one of them, as well as three others of our seedlings, Marolee was not much later, this bloomed in 45 days and flowers often 7 in. across and very early. Lottie Belle has proven to be a very good forcing Glad. Mr. Fred Hubbard of Mass., writes: "We have forced many varieties from Maiden Blush to Elizabeth Tabor but Lottie Belle seems to please our trade."

The florists like the color of Normanda and ask for it.

We have been breeding especially for early Glads and have had some real results that will speak for themselves later.

About eight years ago we began breeding for a double Glad. We introduced last year Fanny Crosby, a very fine cream Glad that took first at Springfield for the most bloom open and perfect buds, this comes with about 30%, 8 petals or more. This year we have another very fine white Glad, Marjorie Louise, that comes about 30%, 8 petals, and this year among our new seedlings we found three that came 90%, 8 petals. We have another seedling that often has bloom with 15 to 20 petals.

We hope sometime to have a glad that will be 100% double.

This year we had over 30 seedlings in our trial plot ready to introduce, that had been sorted over for five years. Out of these we selected two and sold the entire stock of the rest, so we are sure these are good ones.

OUR INTRODUCTIONS FOR 1930

GLADYS CLARK—A tall Eosine Pink with a slight Begonia rose feathering in lower petal. A wonderful color and a wonderful Glad. Spikes always straight, flowers very well placed, seven open at one time, often over 20 buds on spike, fine substance, good size and a good propagator of bulblets that grow.

It blooms about the same time as Evelyn Kirtland.

Each—Large \$5.00, med. \$3.00, small \$2.00, bulblets \$.50.

MARJORIE LOUISE: A fine large pure white. This generally comes with about 30% of the bloom having 8 petals, flowers very well placed on spike and opens wide open.

About 18 buds on spike and 5 or 6 there just the same. Healthy and open. medium strong grower.

This does not produce large and Each—Large \$5.00; small \$2.00; pretty bulbs like some, but they get bulblets \$.50.

PURE MAPLE SUGAR

Do you want some real MAPLE SUGAR made from pure Maple Sap? Every spring in March and April we produce some. REAL QUALITY, too. Every bucket and spout is washed and scalded thoroughly, and when they are set to the trees every bucket has a cover to keep out dirt, rain, etc. Then we have the best evaporator we could get. Sanitary conditions and rapid process of evaporations are absolutely necessary to produce a fancy quality.

We make our sugar into 2 oz. cakes, 8 cakes fit in a fancy box.

Price \$.50 per box, postage extra.
